"At Country Club of Detroit we are steadfast in our approach to build from the ground up in our approach to Turf Management. The Earthworks lines of products are a valuable & key component of this from stress tolerance, strong rooting, to aerification recovery – Earthworks products will always play a key role in our agronomic success."

-Ross Miller, Golf Course Superintendent
Country Club of Detroit

EarthWorks AERIFICATION PROGRAM

APPLICATION RATES:	*Renovate Plus*	*Myco Replenish*
	10 -25 lbs/1000	10-20 lbs/1000

Quick Recovery • Deep Root Establishment • Improves Soil Drainage • Helps to Reduce Salt Damage • Remineralizes Soils

Renovate Plus & Myco Replenish

Renovate Plus is a soil conditioner, a recovery agent, a water manager, a microbial stimulant and a food source for both the plant and soil microbes. Renovate Plus is 50% Ecolite which holds moisture and nutrients while providing soil porosity. The product is rich in available and sustainable carbon amendments and a host of rock minerals that quickly become available to the plant.

Myco Replenish is both endo and ecto mycorrhizae fungi blended in a rich carbon based carrier. Mycorrhiza means "fungi roots" or "root extension." ***This product will grow roots!*** It will also help with phosphorous mobility into the plant. Ideal for all types of turf grass and landscape plantings.
