

# KICK

## Soil Conditioner

**PURPOSE:** Kick is designed to feed soil microorganisms and is intended to be used as part of a professionally managed soil program.

### DIRECTIONS FOR USE:

**Turf Maintenance:** Apply 5 to 10 fl. oz. per 1000 sq. ft. in 2 gal. of water every two to four weeks throughout the growing season—preferably in split applications. Kick may be mixed with most fertilizers.

**New Seeding:** Apply 6 fl. oz. per 1000 sq. ft. in a minimum of 2 gal. of water at time of seeding and again 4 to 6 weeks later. May be used with starter fertilizers.

**Sod Installations:** After laying sod, thoroughly soak with a dilution of 6 fl. oz. per 1000 sq. ft. in at least 2 gal. of water. Repeat every 6 weeks for first year or two.

**Tree Soil Injection:** Add 1 quart per 100 gal. to cover 3000 sq. ft. of root area and apply every 60 days.

**Landscaping Maintenance:** Drench soil with 4 fl. oz. in 2 gal. of water every 60 days. Always perform a bench test for compatibility.

### KEEP OUT OF REACH OF CHILDREN
